COVID-19 Policy as of 7/27/2023

Someone Tests Positive for COVID-19 (Isolate)

Everyone, regardless of vaccination status.

- Stay home and isolate. If you are symptom free or your symptoms are resolving after 5 days and you have been fever-free for at least 24 hours, you can return to FYCC and wear a well fitted mask for 5 days. If you or your child is unable to wear a well fitted mask properly, they can return after the 10th day.

Exposed to Someone with COVID-19

- You do not need to quarantine unless you develop symptoms.
- If you develop symptoms, take a test.
- ***It is recommended that you still test on the 5th day even if you never showed symptoms.***

Calculating Isolation

Day 0 is your first day with symptoms or a positive test. **Day 1 is the first full day (24 hours) after your symptoms developed or your test specimen was collected.** If you have COVID-19 or have symptoms, isolate for at least 5 days.

*FYCC will always provide all information that we can without violating family and employee privacy.

**This is FYCC's flexible guidelines, and all closures are subject to change and can be based on variants and developing recommendations of Kitsap Public Health District and/or CDC, and what is decided is in the best interest of children and employees.

***FYCC will not reimburse families for days not attended due to COVID-19. If you are struggling financially, please reach out to inquire about our scholarship options.
